Shared space is an urban design approach that minimises the segregation between modes of road user. This is done by removing features such as kerbs, road surface markings, traffic signs, and traffic lights. Hans Monderman and others have suggested that, by creating a greater sense of uncertainty and making it unclear who has priority, drivers will reduce their speed, in turn reducing the ...

In anthropology, liminality (from the Latin word *limen*, meaning "a threshold") is the quality of ambiguity or disorientation that occurs in the middle stage of rites, when participants no longer hold their preritual status but have not yet begun the transition to the status they will hold when the rite is complete. During a rite's liminal stage, participants "stand at the threshold" between ...
