Accelerators for America's Future

Space exploration is the discovery and exploration of celestial structures in outer space by means of evolving and growing space technology. While the study of space is carried out mainly by astronomers with telescopes, the physical exploration of space is conducted both by unmanned robotic space probes and human spaceflight.. While the observation of objects in space, known as astronomy ...

The Structure of Scientific Revolutions (1962; second edition 1970; third edition 1996; fourth edition 2012) is a book about the history of science by the philosopher Thomas S. Kuhn. Its publication was a landmark event in the history, philosophy, and sociology of scientific knowledge. Kuhn challenged the then prevailing view of progress in "normal science".

The leap to Orange coincided with three significant management breakthroughs that gave us the modern corporation. First was the concept of innovation, which brought with it new departments such as R&D, product management, and marketing, as well as project teams and cross-functional initiatives. Second was accountability, which provided leaders with an alternative to commanding people: Give ...
