Mail Merge is one of the most efficient features in Microsoft Office: you can design your document in Word, with smart text formatting, fonts and images – and send your text in individual messages via Outlook. You can use Outlook Contacts, or an external data file (Excel, Access, .csv or a text file) as your recipient data source, and add fields from your data file into your message text to ...

This is a list of frequently asked questions (FAQ) for GNU Octave users. We are always looking for new questions (with answers), better answers, or both.

FAQ - Octave

A typical UNIX or Linux machine creates many log files during the course of its operation. Some of these contain useful information; others can be used to help you with capacity and resource planning. This article looks at the fundamental information recorded within the different log files, their location, and how that information can be used to your benefit to work out what is going on within ...

The challenge: Marketing your startup in a saturated environment As a startup founder, marketing your startup online can be exciting: It's your chance to get your product in front of the people who need it most. Yet, while the "build-it-and-they-will-come" mentality is scoffed at, too many startup founders the world over do exactly that -- [!]

The Ultimate Online Marketing Strategy for Your Startup

Furthermore we always explain that the real, tangible “embodiment” of a platform strategy is the set of platform experiences that it enables.. Therefore we believe that the exploration of possible platform strategies for brands and organizations should start from analyzing existing available experiences, and end with redesigned, different, new experiences, designed with the “wholeness ...
