### **the aims and methods pdf**

Boy Scouting works toward three aims. One is growth in moral strength and character. Character can be defined as the collection of core values by an individual that leads to moral commitment and action, and encompasses a boy's personal qualities, values, and outlook. A second aim is participating citizenship.

Supplementary resources. At each point, we identified the presence and abundance of several indicator plant species, we used the punctual interception method [36] to assess understory structure and density and the point-centered quarter method [37] to estimate tree density and basal area. From these measurements and using Principal Component...
